# In this Hand-on we are going to convert PPK extension file to PEM extension file

Prerequisite:

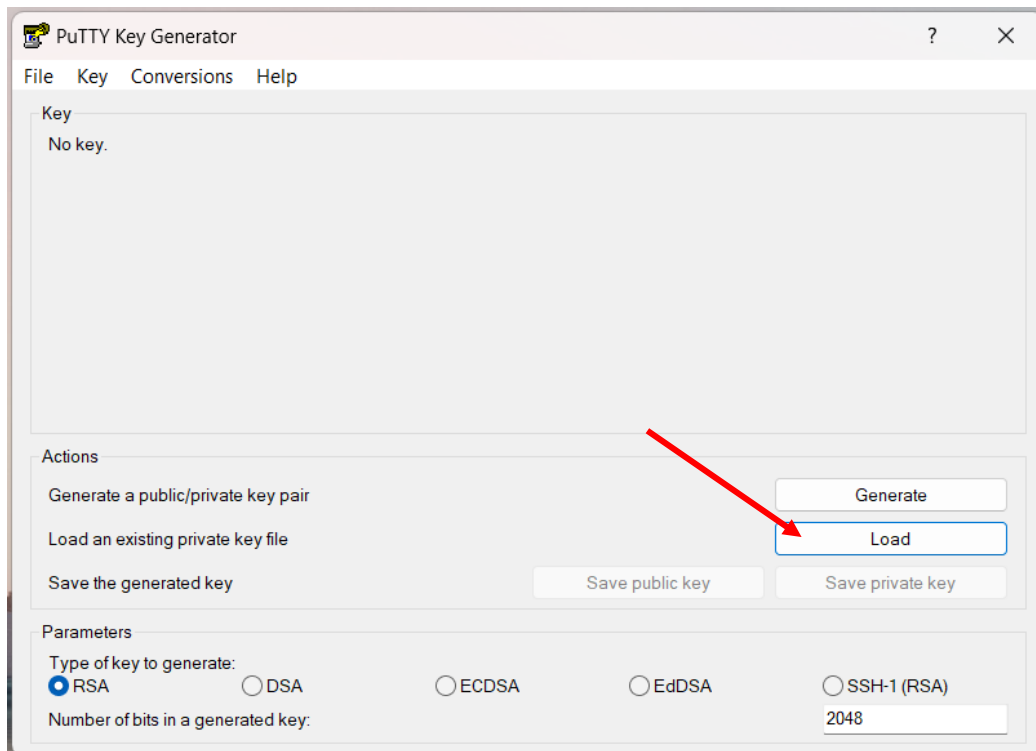

1) Putty Key generator
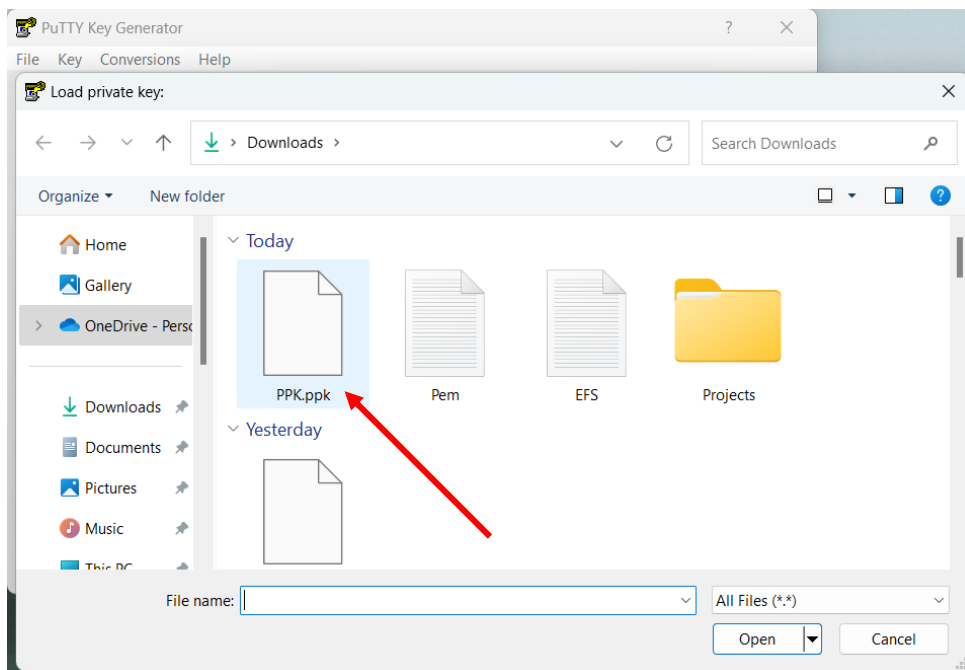

2) .ppk extension file
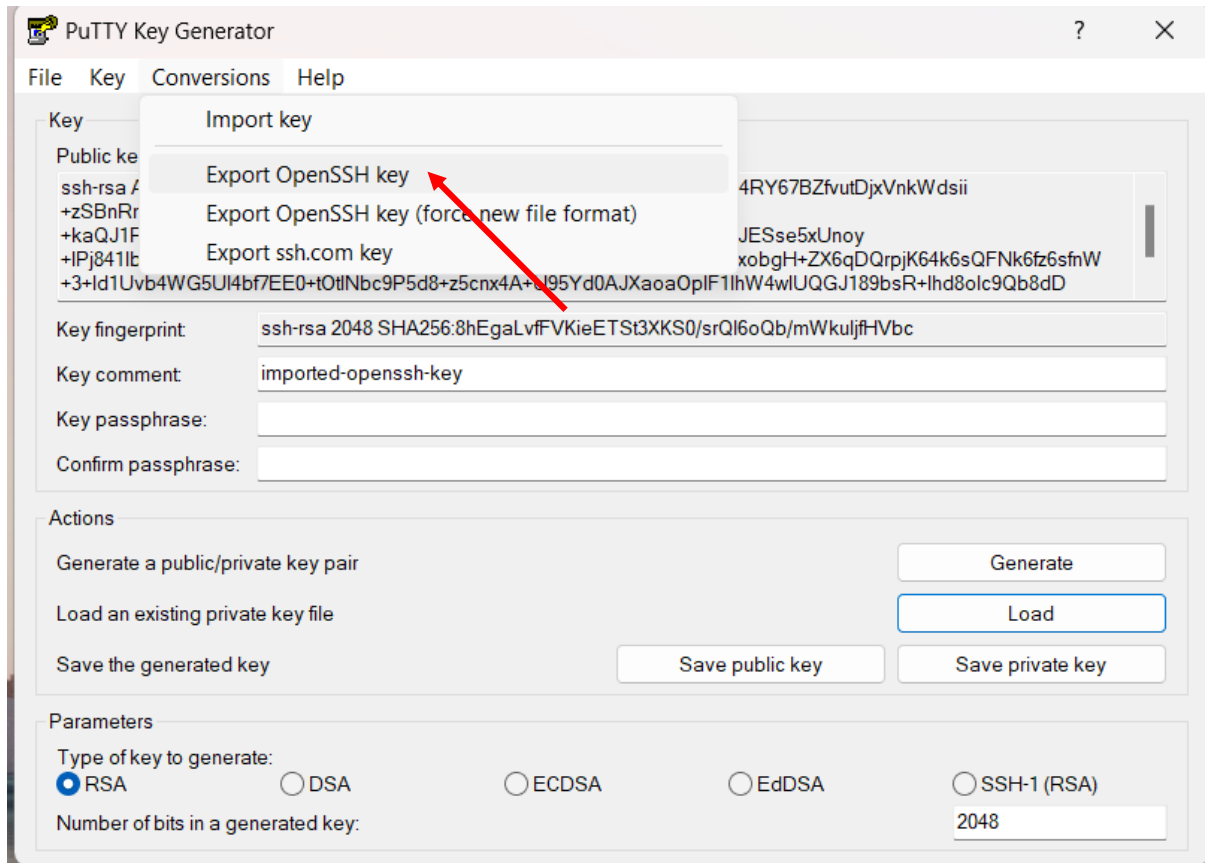

In my download PPK.ppk file is present

**Step 1:** open putty key generator app and click on Load button

Step 2: select you .ppk extension file and click on open

**Step 3:** Go to conversion tab under that select Export OpenSSH key

Click on yes

Step 4: give some name before saving your public file. Im saving it as ==convertedppkfile.pem==

Now if you go and check your downloads ==convertedppkfile== is there

And it's done

Thank You
